Spray Foam Contractor Comparison Sheet

There are several items to consider when choosing a Spray Foam Contractor. We have created a checklist of the top ten items that you should consider when choosing who you can trust to install your Spray Foam Insulation properly.

	Synergy Foam	Company B	Company C
Does all of the existing insulation get removed prior to foam insulation being installed?	yes		
Are the installers certified by the product manufacturer to install spray foam insulation?	yes		
Do you seal off all soffits, ridge vents, and extend the exhaust fans to the outside of the home?	yes		
Do you use a 3 rd party inspector to verify the spray foam insulation has been installed properly?	yes		
Does your equipment have its own power source? (Does not need to be powered by your home)	yes		
Is there an ignition barrier included in the proposal?	yes		
Did you receive a detailed written proposal that clearly explains each line item?	yes		
Did the company representative come out to the home and spend time looking at all of the areas to be insulated?	yes		
Did the company representative take the time to explain how spray foam insulation works and answer any questions and concerns you have?	yes		
Are you the one who will be installing my spray foam insulation? (Does not use subcontractors)	yes		
If there is a warranty issue, will your company come back and work with me to resolve it?	yes		

Synergy Foam prides itself in the quality of the spray foam insulation that it installs. To see our explanations to the questions above, please visit our website at <http://www.synergyfoam.com/quality>
